The manuals contain part numbers you may need to reference to order CPAP or BIPAP Machine parts or supplies.

Devilbiss CPAP and Bi-PAP Machine User Manuals

The M Series Bipap Plus differs from a CPAP in that it switches back and forth between two pressure levels, one higher and one lower, rather than providing one continuous pressure level. The pressure upon inhalation is higher to hold the airway open, but as the user exhales, the pressure drops to a preset lower level.
