For Home Assistant Addon installations, the config file needs to be in the root of your Home Assistant config directory (same location as configuration.yaml) and named frigate.yml.. For all other installation types, the config file should be mapped to /config/config.yml inside the container.. It is recommended to start with a minimal configuration and add to it as described in this guide:

Configuration File | Frigate

Introducing Galaxy S21 Ultra 5G. Designed with a unique contour-cut camera to create a revolution in photography — letting you capture cinematic 8K video and snap epic stills, all in one go. And with Galaxy's fastest chipset, strongest glass, 5G and an all-day battery, Ultra easily lives up to its name.
