Pololu's Maestro servo controllers offer industry-leading resolution and stability for precise, jitter-free control of your RC servos. Features include a native USB interface, separate speed and acceleration settings for each servo, internal scripting control, and channels configurable as general purpose I/O.

Pololu Robotics and Electronics

I first dipped my toes into electronics engineering via Elektor and I have profited greatly from it over the years. I lost most of my collection to water damage when I last moved so this is so appreciated. Not all of the information is current. Some of the projects are almost unbuildable. But the information and the descriptions of the circuits ...

A sunshine recorder is a device that records the amount of sunshine at a given location or region at any time. The results provide information about the weather and climate as well as the temperature of a geographical area. This information is useful in meteorology, science, agriculture, tourism, and other fields. It has also been called a heliograph. ...

Sunshine recorder - Wikipedia

An electronic musical instrument or electrophone is a musical instrument that produces sound using electronic circuitry. Such an instrument sounds by outputting an electrical, electronic or digital audio signal that ultimately is plugged into a power amplifier which drives a loudspeaker, creating the sound heard by the performer and listener.. An electronic instrument might include a user ...

E' facile togliere i punti e poi rimetterli, magari sostituendoli con altri o con del filo di cotone. Questo fa bene alla conservazione degli originali (se uno ci tiene); i punti infatti arrugginiscono e la ruggine mangia la carta. Per spedirci i file utilizziamo uno spazio in rete (Dropbox), tramite il quale potete effettuare l'upload.
