From E1 to D5, every note on a keyboard activate three different sample types depending on the velocity value.

Top 50 Free Realistic Guitar VST Plugins With Sound ...

A P90 guitar is any type of guitar that uses P90 pickups. P90s are a type of single-coil pickup that use a wider bobbin than standard single-coil designs. They look larger in the guitar body, and provide a "larger" tone as well. This changes the tone of the pickup, making it more resistant to feedback than classic Fender-style single-coils.

The 7 Best P90 Guitars (The ULTIMATE 2022 Buyers Guide)

Great clean pallet to color with any pedal, this amp loves them all. I can cover any gig or style with this head, my vintage 2x12's cabinet and my pedal board. The first night I played through this amp on clean, the tone was so pristine and large and ambient I could hardly tell that it didn't have reverb.
