Hi there, you guys probably hear about this problem quite a lot so my apologies. But, I have been pulling my hair out trying to fix this problem. I am using a PS4 controller wired into my PC on games that natively support a PS4 controller. But DS4Windows has a lot of custom options and A LOT better input delay that quite obvious to tell in game.

Xbox accessory deals - Microsoft Store

A keyboard and mouse may be the preferred input device for PC gaming, but there are others who are more comfortable with a console controller. Anyways, some genres- like racing and fighting- work better with a console controller (unless you are willing to fork over money for a special setup, like a fightstick).

In Patch 9.0.1, Blizzard has finally added native gamepad support to WoW! In the past it was necessary to use an external program, such as xpadding, Steam, or the ConsolePort addon's WoWmapper companion, to control the game with a gamepad such as the Xbox, Playstation, or Steam Controller. This is a really useful feature for people who are need a little extra help with accessibility due to ...
