STEP IN | meaning in the Cambridge English Dictionary

Chassé (French, "to chase") is a dance step with a triple step pattern used in many forms of dance. It is a gliding, flowing [citation needed] step with the feet essentially following a step-together-step pattern. Timing and length of steps vary from dance to dance. Closed change. Closed change is a basic step in the waltz.

Glycolysis, which translates to "splitting sugars", is the process of releasing energy within sugars. In glycolysis, a six-carbon sugar known as glucose is split into two molecules of a three-carbon sugar called pyruvate. This multistep process yields two ATP molecules containing free energy, two pyruvate molecules, two high energy, electron-carrying molecules of NADH, and two molecules of water.
