The Modular Architecture of Grammar (Cambridge Studies in Linguistics series) by Jerrold M. Sadock. Modular grammar postulates several autonomous generative systems interacting with one another as opposed to the prevailing theory of transformational grammar where there is a single generative component – the syntax – from which other representations are derived.

The Modular Architecture of Grammar by Sadock, Jerrold M ...

Multi-modular grammar provides simpler, more intuitive analyses of grammatical phenomena and allows for greater empirical coverage than prevailing styles of grammar. The book illustrates this with a wide-ranging analysis of English grammatical phenomena, including raising, control, passive, inversion, do-support, auxiliary verbs and ellipsis.
